Career Objective

Motivated and self-taught full-stack developer with hands-on experience building responsive, user-friendly websites and applications. Proficient in HTML, CSS, JavaScript, Django, Bootstrap, MySQL, Git, ReactJS, and Figma. Known for solving real-world problems through clean design and functional code. Seeking opportunities to contribute to impactful digital solutions.

Technical Skills

- Languages: HTML, CSS, JavaScript, Python, SQL
- Frameworks & Tools: Django, Bootstrap, Git, MySQL, Figma, ReactJS, Leaflet.js
- Design & Dev: UI/UX Design, Responsive Web Design, Version Control, Wireframing (Figma)
- Soft Skills: Collaboration, Communication, Problem Solving, Adaptability

Projects

- Real Estate Agency Website
- Developed a multi-page real estate website using Bootstrap 5, HTML, CSS, and JavaScript.
- Features include agent profiles, service pages, dynamic property listings, and an embedded Leaflet map.
- Improved layout, responsiveness, and user navigation across all devices.
- Movie Game Web App (Django)
- Created a Django-based movie game application with genre filtering and user favorites.
- Integrated Django models, templates, and admin panel to manage content and user interactions.
- Demonstrated strong backend and frontend integration with clean UI design.
- To-Do List App
- Built a JavaScript-powered task manager allowing users to add, complete, and delete tasks in real-time.
- Designed a clean interface using vanilla JS, HTML, and CSS.
- Practiced DOM manipulation and basic application state management.
- Team E-commerce Website
- Collaborated with a development team to build a complete e-commerce platform.
- Developed and styled the homepage layout using HTML, CSS, and Bootstrap.
- Focused on responsive design and consistent branding.
- Team Movie Website

- Built the full frontend interface and Django admin dashboard for a movie site.
- Implemented content upload, genre-based filtering, and detailed movie views.
- Used Git for collaboration and applied UI/UX best practices.
- Beauty App UI Design (Figma)
- Designed a modern, user-friendly mobile app interface for beauty service bookings using Figma.
- Prioritized easy navigation, soft aesthetics, and accessibility.
- Showcased strong UI/UX skills and attention to user journey.
- React Movie Site (In Progress)
- Currently developing a movie listing website using ReactJS and third-party APIs.
- Building reusable components and responsive layouts with React hooks.
- Demonstrating continuous growth in modern frontend development.
